16.4 Management Information

State the management information required.
17. Service Report and Contents

The Service Report forms the basis of the service review and whilst some detail is required it should be at a level appropriate to the intended outcomes of the Review. Most of the report should be at summary level and should mirror the aspects of the SLA that are measurable.

17.1 Management Summary

A summary of the major features of the reporting period describing briefly incidents, service levels, improvements and service issues.

17.2 Performance Against Measured Attributes

17.2.1 Performance against KPIs

17.2.2 Performance against other Measurables

17.2.3 Overall Traffic Light Service Performance Indication

17.3 Non-Measured Performance

This is a description of any problems, incidents and achievements that happened or were made during the reporting period. The sections in here depend on what is in the SLA and what is of interest, for instance a particular aspect of the service is under scrutiny.

17.4 Service Improvement Plan

A table of planned service improvements comprising identification, a very brief description, status, the expected delivery date, resource allocated and any other information of interest:

<table>
<thead>
<tr>
<th>Description</th>
<th>Progress and status</th>
<th>Actions and Issues</th>
<th>Delivery Date</th>
<th>Responsibility</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

17.5 Report on Service and Support Area Performance

Specific areas, for instance, Service Desk or Operations, are reported on according to criteria agreed

17.5.1 Breakdown of Incidents

A summary, for example

<table>
<thead>
<tr>
<th>Service Functional Area</th>
<th>Priority 1 Incidents</th>
<th>Priority 2 Incidents</th>
<th>Priority 3 Incidents</th>
</tr>
</thead>
</table>
17.5.2 Incidents in Detail

17.6 A table of incidents comprising, for example:

<table>
<thead>
<tr>
<th>Date &amp; Time</th>

17.7.4.2 Specific

Here the report will highlight specific elements that are required to be reported in detail as a result of the SLA or actions from previous reviews. For example where the utilisations or growth rates exceed threshold values, or issues resulting from incidents.
17.8 Change Control

A summary of changes applied to the system. The detail required might be great or Service Management all depending on the purpose. At least a summary is required.

17.8.1 Releases

List or describe the releases implemented

17.8.2 Emergency Changes

List or describe the emergency changes implemented.
18. Glossary

**Service Owner**
The person responsible for decision making with regard to the Business Service

**Service Level Manager**
The person responsible for ensuring that Service Levels for the Service are met

**Service**
A business defined deliverable supported by one or more I.T. Systems, which enables the business to deliver its objectives

**System**
An I.T. deliverable comprised of varying hardware and software, which enables a Service to run
