Course Overview

Do you want to understand Agile and Scrum quickly and easily?

Our Scrum Basics Online Workshop will give you an understanding of Scrum and how it is used by teams in the process of building software.

Course Learning Outcomes

Our Scrum Basics Online Workshop is suitable for those who are new to Agile who want a quick overview or teams who have been doing it for a while and are looking for a refresher on the basics.

Audience

Our Scrum Basics Online Workshop is suitable for anyone who wants to learn about Scrum.

Entry-Level Requirements

There are no entry-level requirements for our Scrum Basics Online Workshop.

Recommended Reading

Our Scrum Basics Online Workshop does not require any existing knowledge of the Scrum Framework.

What's Included

Our Scrum Basics Online Workshop will provide you with one-hour of content and culminates with a 40-question assessment at the end to test your knowledge.

Exam Information

There are no formal qualifications associated with our Scrum Basics Online Workshop, but there is a 40-question assessment at the end to test how much you have learned.

What's Next

Our two-day Agile Certified Scrum Master (CSM) training course covers all the team roles, activities and artifacts, so that you can be an effective Scrum Master or member of a Scrum team.

Our Agile Certified Scrum Master (CSM) training course will teach you the Scrum Framework, team accountabilities, events, and artifacts as well as how to guide your team to apply Scrum.

Additional Information

If you're thinking of joining a team that's using Scrum, or if you are on a team that is thinking about starting Scrum, you will get a solid background to get you started in Agile.
