Course Overview

IT Service Reporting is a key aspect of managing your IT Services. It is an opportunity to demonstrate that targets are being hit, or where services are not being hit what is being done to ensure that they will be hit in the future.

Our two-day IT Service Reporting Workshop will teach you all of the aspects of IT Service Reporting from how to get started to more advanced techniques to address ever-growing challenges of growing service complexity, breadth of integration and customer demand.

Course Learning Outcomes

The IT Service Reporting process reports on the results achieved both operationally and strategically. It also reports on any developments related to Service Level Agreements such as hitting various targets, like availability.

Audience

Our IT Service Reporting Workshop is perfect for anyone wanting to improve their IT Service Reporting capabilities.
