- Format: Multiple Choice
- Pass Mark: 65%

What's Next

Our ISO 27001: 2022 Certified ISMS Transition Online training course is available for pre-order and will be fulfilled in January 2023.

ISO 27001: 2022 is the newest version of the ISO 27001 standard and was published in October 2022. Even though, it is not significantly different from the previous standard - it does have notable changes that include scoping, planning, operation and performance evaluation.

Our ISO 27001: 2022 Certified ISMS Transition Online training course has been designed for individuals who hold existing IBITGQ ISO 27001 qualifications and wish to update their knowledge and credentials. It is also suitable for those with equivalent ISO 27001 qualifications from BSI, PECB, CQI / IRCA or APMG.

Businesses certified to ISO 27001: 2013 have a three-year transition period to make the necessary changes to their Information Security Management System (ISMS).

Additional Information

ISO 27001 is a structured, technology-neutral, specification and code of practice for Information Security Management in organisations of all sizes, which is not vendor dependent. All organisations should adopt this standard as part of their overall risk management strategy.

It has been reported that organisations gain significant competitive advantage by achieving ISO 27001 certification and compliance. This can include winning new business, increasing customer confidence and improved efficiency across the organisation. The number of organisations taking up ISO 27001 is rapidly accelerating across all sectors - so don't let your organisation get left behind.
