Course Overview

Our two-day Agile Project Management Foundation training course teaches you how to lay the foundations for successful Agile projects and manage an Agile project from start to finish.

Our Agile Project Management Foundation training course will detail the different management styles needed for successful Agile projects.

Course Learning Outcomes

Our two-day Agile Project Management Foundation (AgilePM) training course and certification was developed in partnership with the Agile experts at the DSDM Consortium and is accredited with the APMG Examination Institute. It is based on DSDM's Agile Project Framework

The AgilePM guidance and supporting training courses explain how to lay the foundations for successful Agile projects and manage an Agile project from start to finish.

Audience

The AgilePM certification is aimed at aspiring and practising Project Managers, and at team members wishing to adopt a fast-paced, flexible and collaborative approach to Project Management whilst maintaining standards and rigour.

Entry-Level Requirements

There are currently no prerequisites for our Agile Project Management Foundation training session.

Recommended Reading

We would recommend that you purchase the Agile Project Management Handbook Version 2.0 from APMG-Business Books.
