Course Overview

Continual Service Improvement (CSI) is something which many organisations strive for but rarely achieve, mainly because they have not developed the underlying processes, procedures and governance that are needed to achieve CSI.

Our one-day IT Continual Service Improvement Masterclass will cover everything that you will need to put in place to establish a robust and successful Continual Service Improvement (CSI) programme.

Course Learning Outcomes

Page 2

By the end of this masterclass, participants will be able to understand the principles and key elements of IT Continual Service Improvement, assess the current state of their organisation's IT services, identify improvement opportunities, and develop a structured approach for implementing CSI strategies and measuring outcomes.

Audience

Our IT Continual Service Improvement Masterclass is suitable for those who are looking to establish Continual Service Improvement (CSI) within their organisation as well as those who have already started and those who believe they have a credible solution in place, but want to confirm that they have taken the correct approach.

Entry-Level Requirements

There are no formal entry-level requirements for our IT Continual Service Improvement Masterclass.

Recommended Reading

There is no recommended reading associated with our IT Continual Service Improvement Masterclass.

What's Included

Our IT Continual Service Improvement Masterclass includes digital course manuals and hand-outs.
