Course Introduction

The four-day Certified EU General Data Protection Regulation (GDPR) Practitioner Virtual Learning training course builds on the Certified EU General Data Protection Regulation (GDPR) Foundation Virtual Learning qualification will equip participants with the knowledge and operational skills to build, implement and manage a compliance programme under the EU GDPR and successfully fulfil the role of the Data Protection Officer (DPO).

More extensive in scope and application than the current Data Protection Act (DPA), the EU GDPR extends the data rights of individuals, and requires organisations to develop clear policies and procedures to protect personal data, and adopt appropriate technical and organisational measures. UK organisations have until 25 May 2018 to comply with the new law, or potentially face fines of up to 4% of annual turnover or €20 million - whichever is greater.

Please Note: This Virtual Learning sessions is available on different dates with varying start times dependent on your location (e.g. UK, Europe or USA). Contact one of our friendly Account Managers for more details on +44(0)1539 736 828.

Course Description
The EU General Data Protection Regulation (GDPR) Practitioner Virtual Learning training course will provide you with a practical understanding of the implications and legal requirements for UK and EU organisations of any size. In addition, we will help you develop your awareness of non-compliance fines: 4% of global annual turnover or €20 million.

The EU General Data Protection Regulation (GDPR) Practitioner Virtual Learning training course focuses on the application of the regulation, how the data protection principles work in practice, the policies and procedures necessary, and practical guidance on how to implement an effective privacy and information security compliance programme. This includes using:

- A Real-Life Case Study To Demonstrate Best Practices & Methodologies;
- A Data Protection Impact Assessment (DPIA) Tool To Help Assess & Address Privacy Risks
- A EU GDPR Compliance Gap Assessment Tool To Help Prepare A Compliance Plan

The tools are included free of charge for you to use in the workplace.

The Certified EU General Data Protection Regulation (GDPR) Practitioner Virtual Learning training course supports continued professional development programmes by qualifying for seven CPD/CPE credits.

Next Steps

With every growing dependence on information and communications, the scope of security practice has had to evolve from IT Security to Information Security and now on to Cyber Security and Cyber Resilience.

With increased on-line customer engagement, security can no longer be just focused on the technology, but requires a collaborative approach driven from the board downwards to include everyone in the organisation, including the supply chain.

Cyber Resilience requires an enterprise wide risk based strategy that proactively manages threats, risks and impacts on critical information and supporting assets.

RESILIA® maps directly on to current Best Practices like ITIL® to ensure a joined up approach is adopted and implemented.

- RESILIA® Foundation Online (30 Days)
- RESILIA® Foundation Online (60 Days)
- RESILIA® Practitioner Online (90 Days)
- RESILIA® Practitioner Online (150 Days)

Summary

The EU GDPR Practitioner qualification will be extremely beneficial to you because of the rapidly growing number of organisations that recommend that employees become certified.

If you are successful in passing the examination, you will be awarded the EU General Data Protection Regulation (GDPR) Practitioner Certificate.
