Course Syllabus

Our ISO 27001: 2022 Certified ISMS Foundation training course will cover the following topics:

- An overview of available standards and management system documentation.
- The benefits of ISMS certification.
- An overview of ISO 27001:2022 and its application.
- Key elements of ISMS implementation project planning.
- The core elements of an ISMS.
- The key steps of an ISO 27001 risk assessment.
- An overview of the ISO 27001 Annex A controls.

Course Overview

Our one-day ISO 27001: 2022 Certified ISMS Foundation training course will help you to understand the ISO 27001 standard and the key benefits of implementing an ISMS.

Our ISO 27001: 2022 Certified ISMS Foundation training course will show you how your organisation can benefit from ISO 27001 Best Practice and Compliance.

Course Learning Outcomes

ISO/IEC 27001: 2022 is the newest version of ISO 27001 and was published in October 2022. While not significantly different from the previous standard, ISO 27001:2022 has notable changes that include scoping, planning, operation and performance evaluation, and a revised Annex A. ISO 27001 professionals must have the knowledge to prepare and help their organisation achieve compliance with the new standard.

Our ISO 27001: 2022 Certified ISMS Foundation training course will teach you how to achieve compliance with the ISO 27001 standard. It provides a complete introduction to the key elements required to achieve compliance, including:

- Understanding management system documentation and the requirements of ISO 27001
- Planning, scoping and communication throughout your ISO 27001 project
- The key steps involved in an ISO 27001 risk assessment

Audience

Our ISO 27001: 2022 Certified ISMS Foundation training course is suitable for:

- Anyone looking to start a career in information security

- Prospective ISO 27001 project managers and auditors

Entry-Level Requirements

There are no formal entry-level requirements and our ISO 27001: 2022 Certified ISMS Foundation training course is suitable for non-technical and technical staff.

Recommended Reading

It is recommended that you purchase and read the standard prior to attending our ISO 27001: 2022 Certified ISMS Foundation training course:

- ISO/IEC 27001 2022 Standard

Additional Information

ISO 27001 is a structured, technology-neutral, specification and code of practice for Information Security Management in organisations of all sizes, which is not vendor dependent. All organisations should adopt this standard as part of their overall risk management strategy.

It has been reported that organisations gain significant competitive advantage by achieving ISO 27001 certification and compliance. This can include winning new business, increasing customer confidence and improved efficiency across the organisation. The number of organisations taking up ISO 27001 is rapidly accelerating across all sectors - so don't let your organisation get left behind.
