PURPLE GRIFFON
The IT Service Management Training & Consultancy Specialists

Course Title: Leading SAFe®	**Course Duration**: 2.0 Days
Exam: Included	**Exam Type**: Proctored Exam
Qualification: Leading SAFe® Certificate	

Course Syllabus

Our Leading SAFe® training course will cover the following topics:

- To perform the role of a Lean-Agile Leader, you should be able to:
- Interpret the basic constructs of SAFe and the steps of the Implementation Roadmap
- Exhibit and apply a Lean-Agile mindset
- Apply SAFe®'s Lean and Agile principles to SAFe® roles and practices
- Build high-performing teams by establishing mission and purpose
- Use transformational leadership to drive change, develop people, and encourage innovation
- Support PI Planning and the events associated with successful program execution
- Drive continuous value delivery through the Continuous Delivery Pipeline
- Align strategy and execution with Strategic Themes and Lean Portfolio Management
- Coordinate multiple Agile Release Trains and Suppliers with a Solution Train

Course Overview

Our two-day Leading SAFe® training course teaches the Lean-Agile principles and practices of the Scaled Agile Framework® (SAFe®).

You'll learn how to execute and release value through Agile Release Trains, how to build an Agile Portfolio, and how to lead a Lean-Agile transformation at enterprise scale.

Our Leading SAFe® training course will teach you about the Lean-Agile mindset and how to apply the principles and practices of SAFe to support Agile teams, programs, program portfolio management, and coordinate large Value Streams.

Course Learning Outcomes
