Course Overview

Our five-day Project Management Professional® (PMP) training course is designed to prepare individuals for the Project Management Professional (PMP)® certification exam and will aid individuals in enhancing their project management skills, advance their careers and qualify for job opportunities that require (PMP)® certification.

The (PMP)® certification is a globally recognised credential that signifies a person's expertise in project management.

Course Learning Outcomes

Our Project Management Professional® (PMP) training course will teach you to become proficient in the following:

- Learn from official Project Management Institute® (PMI) content taught by a PMI-certified, experienced instructor.
- Receive a detailed individual study plan that covers all domains, tasks, and enablers of the PMI examination content outline.
- Access individual coaching and guidance during the implementation of the study plan.
- Practice with a (PMP)® Exam Simulator Tool with hundreds of exam prep questions.
- Access daily class recordings for up to three months so you can review topics during exam preparation.

Audience

Our Project Management Professional® (PMP) training course is available to a wide range of individuals and organisations involved in project management or aspiring to become project managers. Including but not limited to:

- Experienced Project Managers
- Aspiring Project Managers
- Project Team Members

Exam Information

Our Project Management Professional® (PMP) training course will help you prepare for and successfully pass the (PMP)® Certification exam while helping to sharpen your skills and knowledge to increase your competitive edge in the project management profession.

What's Next

You might enjoy our three-day PRINCE2® Foundation (7th Edition) Training Course.

PRINCE2® was first launched in 1996, and has had six editions, the last update being in 2017. PRINCE2® 7 Edition seeks to respond to a number of changes that have taken place in our world and in the discipline of project management since then.

Our three-day PRINCE2® Foundation (7th Edition) training course will teach you the key concepts relating to projects and PRINCE2®.

Additional Information

Our Project Management Professional® (PMP) training course offers a wide range of benefits to individuals and organisations including but not limited to the following:

- **Improved Project Management Skills:** PMP training provides IT professionals with a solid foundation in project management principles, methodologies, and best practices.
- **Global Recognition**: The PMP certification is globally recognised and respected.

- **Competitive Edge**: In the highly competitive IT job market, having a PMP certification sets IT professionals apart from their peers.
- **Increased Career Opportunities**: IT professionals with PMP certification often have access to a broader range of career opportunities.
- **Enhanced Project Success Rates**: PMP-certified IT professionals are equipped with the knowledge and tools to effectively manage IT projects.
- **Better Communication and Collaboration**: PMP training emphasises essential project management skills such as stakeholder communication, teamwork, and conflict resolution.
- **Risk Management**: IT projects often involve complex technologies and potential risks. PMP certification training teaches professionals how to identify, assess, and mitigate risks
- **Career Flexibility**: PMP certification is transferrable across industries.
