- Metrics, KPIs and reporting
- Keeping the catalogue up to date
- How to communicate the benefits
- Ongoing continual service improvement
- Current and future challenges

Course Overview

Service Catalogue Management has become flavour of the month - it has great benefits, but only if done correctly. If you are struggling to get your head around the concept, or have started but stalled or are creating multiple service catalogues then you should attend our IT Service Catalogue Management Masterclass.

Our one-day IT Service Catalogue Management Masterclass will look at the purpose of the Service Catalogue, who the stakeholders are and their requirements.

Course Learning Outcomes

By the end of this masterclass, participants will possess a thorough understanding of the principles and practices of IT Service Catalogue Management. They will be equipped to design, maintain, and optimise a service catalogue that effectively represents the IT service offerings, facilitates seamless service delivery, and enhances the value perception among business users and stakeholders.
