- Escalation procedures
- Major Incident Management
- Correctly sizing the Service Desk
- Satisfaction surveys
- Handling disputes
- The technology
- Measuring performance, Metrics and KPIs
- Reporting and dashboards
- Ongoing continual service improvement
- Current and future challenges

## Course Overview

It's often said that the Service Desk is the window on IT, so it's worth ensuring that users can see what's on offer and the content is relevant to them now and in the future. It's also important that you operate as efficiently and effectively as possible to ensure that everyone see value for money.

Our one-day IT Service Desk Masterclass is primarily aimed at Service Desk Managers and Supervisors, but may be applicable to the aspiring Service Desk Analyst looking to acquire the skills to move to the next level.

## Course Learning Outcomes

By the end of this masterclass, participants will have gained a comprehensive understanding of the critical role and functionalities of the IT Service Desk within an organisation. They will be primed to implement, manage, and optimise a Service Desk that delivers exceptional user support, fosters efficient incident resolution, and serves as a central communication hub for IT-related matters.

If you haven't reviewed how your Service Desk operates recently or are looking to do more with less, then our IT Service Desk Masterclass is for you.

## Audience

Our IT Service Desk Masterclass is suitable for Service Desk Managers, Supervisors and Service Desk Analysts.

## Entry-Level Requirements

There are no formal entry-level requirements for our IT Service Desk Masterclass.

## Recommended Reading
