Course Overview

Our Agile Project Management (AgilePM®) Practitioner online training package will show you how to become immediately productive as a project manager in an Agile project environment.

Our Agile Project Management (AgilePM®) Practitioner online training package is equally divided between the theory of the new wave of Agile project management and the practical experience of the techniques and disciplines involved.

Course Learning Outcomes

Our Agile Project Management (AgilePM®) Practitioner online training package will help you to become immediately productive as a member of an agile project environment.

AgilePM® Project Management is globally recognised as the foremost framework and certification for Agile Project Management. This practical and iterative methodology strikes the perfect harmony between the necessary standards, discipline, and transparency essential for effective project management, and the agility, adaptability, and empowerment that Agile offers. It seamlessly integrates with established methodologies like PRINCE2®, PMI, and APMP, while enhancing quality processes like ISO 9001 and CMM1.

Audience

Our Agile Project Management (AgilePM®) Practitioner online training package is suitable for those who are Agile Project Management (AgilePM®) Foundation certified or team members who want to become Agile Project Managers.

Entry-Level Requirements

You must hold the Agile Project Management (AgilePM®) Foundation certificate to be eligible for our Agile Project Management (AgilePM®) Practitioner online training package.
